

Zeigo Network Live

Thurs 13 Jun 2024

09:00 – 10:00

Registration Open

10:15 – 11:00

Opening Session: Are You Ready for 2030?

GARDENS 1-3

As companies' 2030 targets draw ever closer, it's time to accelerate implementation. Includes a state of the renewable energy market in Europe, policy & economics, trends and tactics for moving faster and maximizing impact.

11:15 – 12:00

Breakout Session #1

OPTION 1A: ONSITE DECARBONISATION
GALLERY 2-3

As companies' 2030 targets draw ever closer, it's time to accelerate implementation. Includes a state of the renewable energy market in Europe, policy & economics, trends and tactics for moving faster and maximizing impact.

OPTION 1B: MULTI-BUYER PPAS
GALLERY 4-5

Get the bigger picture of how corporations create actionable strategies to tackle a global footprint and some insights into deal specifics.

12:00 – 13:00

Lunch & Networking Break

13:00 – 13:45

Mainstage: Technology Powering Decarbonisation

GARDENS 1-3

Join us for an engaging panel discussion featuring our technology experts as we delve into the current trends in technology and AI-driven decarbonization. As businesses adapt to new software systems and seek scalable technology solutions, our panelists will discuss how technology is driving large-scale decarbonisation efforts throughout the entire decarbonisation journey.

13:45 – 14:30

Networking Break & Software Demos

14:30 – 15:30

Breakout Session #2

OPTION 2A: TRANSACTING IN EMERGING MARKETS
GALLERY 2-3

Get the bigger picture of how corporations create actionable strategies to tackle a global footprint and some insights into deal specifics. We'll also explore what can Europe learn about the US Inflation Reduction Act and how it's unlocking new renewable avenues.

OPTION 2B: ACCOUNTING FOR PPAS
GALLERY 4-5

Join this session to exchange tips for navigating the minefield of derivative accounting, hedge accounting, lease accounting, and more.

15:45 – 16:45

Mainstage: Decarbonising Scope 3 Emissions

GARDENS 1-3

An increasing number of effective strategies have been proven to overcome hurdles in supplier engagement, clean energy investment, and more. (1) Things we're learning a few years in and (2) emerging challenges that companies are recognising.

18:00 – 22:00

Zeigo Network Live

Fri 14 Jun 2024

08:00 – 09:00

Registration Open

09:00 – 10:00

Mainstage: Changing Policies & Procurement

GARDENS 1-3

How are energy and sustainability reporting policy changes, particularly CSRD, influencing renewable energy procurement? Hear from our experts on how the fast-changing policy environment is impacting sustainability strategy and renewable energy investment.

10:00 – 10:30

Quick Break

10:30 – 11:30

Breakout Session #3

**OPTION 3A: YOUR IMPACT STRATEGY
GALLERY 2-3**

Meeting net-zero targets by 2050 requires the continued pursuit of all flexible mechanisms, including the global carbon markets. We need all types of greenhouse gas emission reduction projects deployed — avoidance, conservation, nature-based solutions, and new carbon removal technologies.

**OPTION 3B: MANAGING RISK POST SIGNATURE
GALLERY 4-5**

Once the dust has settled after the PPA-signing party, is the real work only just beginning? In this session, we discuss some of the common hurdles that can arise post-PPA signature, and how to respond to them when they happen.

11:30 – 13:00

Lunch & Farewell Reception
